Subject: RE: parking!

[Former assistant property manager],

The OAG does not have any friends at the Harbours. The OAG has talked to many people and that information is part of our investigation and is confidential. Thanks for your input.

Best Regards,

Sally Miller

Subject: FW: parking!

As an employee here at the Harbours, I feel you should see some of the awful things your Harbour friends are saying about the staff. Also attached is the apology of one of the residents who came across the counter grabbing and hitting me for doing my job. I have worked all my life for wonderful companies, such as Glenmore Distilleries as an employee benefit specialist and Anthem Blue Cross and Blue Shield where I was the assistant to the Chief Executive Officer and nowhere else have I have to endure the verbal abuse as I have here. Also Sheila should check here condo Nos. 312 belongs to Kevin Zipperle.

I feel you folks need to talk to some of the staff and see how these other folks treat us.

Thank you for listening.

[Former assistant property manager]
