At least the car towing has been nipped in the bud, or at least I think it has. He would watch from a higher perch as the tow truck took people's car off into the wild blue yonder. I've witnessed that, and yes something had to have been unzipped for sure, he was grinning from ear to ear.

Kathy Kennedy Bupp He'll have to lie to accuse me of anything. I am a law abiding citizen and a good Harbours resident. God is my sword and my shield.... what does he have that is greater than that. The truth is on my side and so is my bad ass no nonsense husband!!!

Kathy Kennedy Bupp That will be an unfortunate lapse of judgement on his part and anyone who chooses to fall to his pressure. I'll put my character up against his anytime. I would caution him to consider that I have the mayor and the majority of the city's town council on speed dial. In addition to our city's leaders, I have the support of my good friends, Ron Grooms, Todd Young, Greg Zoeller, the former governor, Mitch Daniels AND last not but least a family relative, and the current governor, Mike Pence. I don't like to subject them to the antics of fools.....but I WILL! You can take that to the bank.
